Dear Matt & Gordon:

It was good to visit with you in Geneva and to hear of your plans for your meeting in Boston. When I returned, I had your invitation and would like very much to attend. However, I will be in Europe again during that period of time, but know that Leo and/or Kyle will be pleased to represent us.

After leaving Geneva, we had a good industry meeting in Zurich, and I'll probably be filling you in on the details of that at a later date.

Once again, as slow as it may be, I think we are making progress. Thanks again for the invitation.

Sincerely,

Will D. Carpenter
